Bram ten Cate

Software Developer

👤 Profile

My name is Bram, a calm, focused developer with extensive experience in software development. I am a perfectionist and therefore I think performance is important. Quality is of paramount importance. I find self-development very important and would like to continue to develop myself with new tools. I do not shy away from a challenge. In addition, I am easy to handle and I do like some dry humor.

💼 Employment History

Software Developer at APRO Software Solutions, Bunschoten-Spakenburg

May 2013 – Present

At APRO I worked on a client and web / cloud application that tries to automate as many invoice payments as possible. For this, I have developed a system that can recognize XML invoices and process them automatically. I also worked with tools and languages such as, JAVA, Delphi, SOAP, SQL, Linux, and databases.

💼 Internships
